Intersections of Disadvantaged Communities and Renewable Energy Potential:

Data Set and Analysis to Inform Equitable Investment Prioritization in the United States

November 15, 2022

Liz Ross, M.S. | Graduate Intern, National Renewable Energy Laboratory

Research Highlights

Webpage

Justice40 Initiative

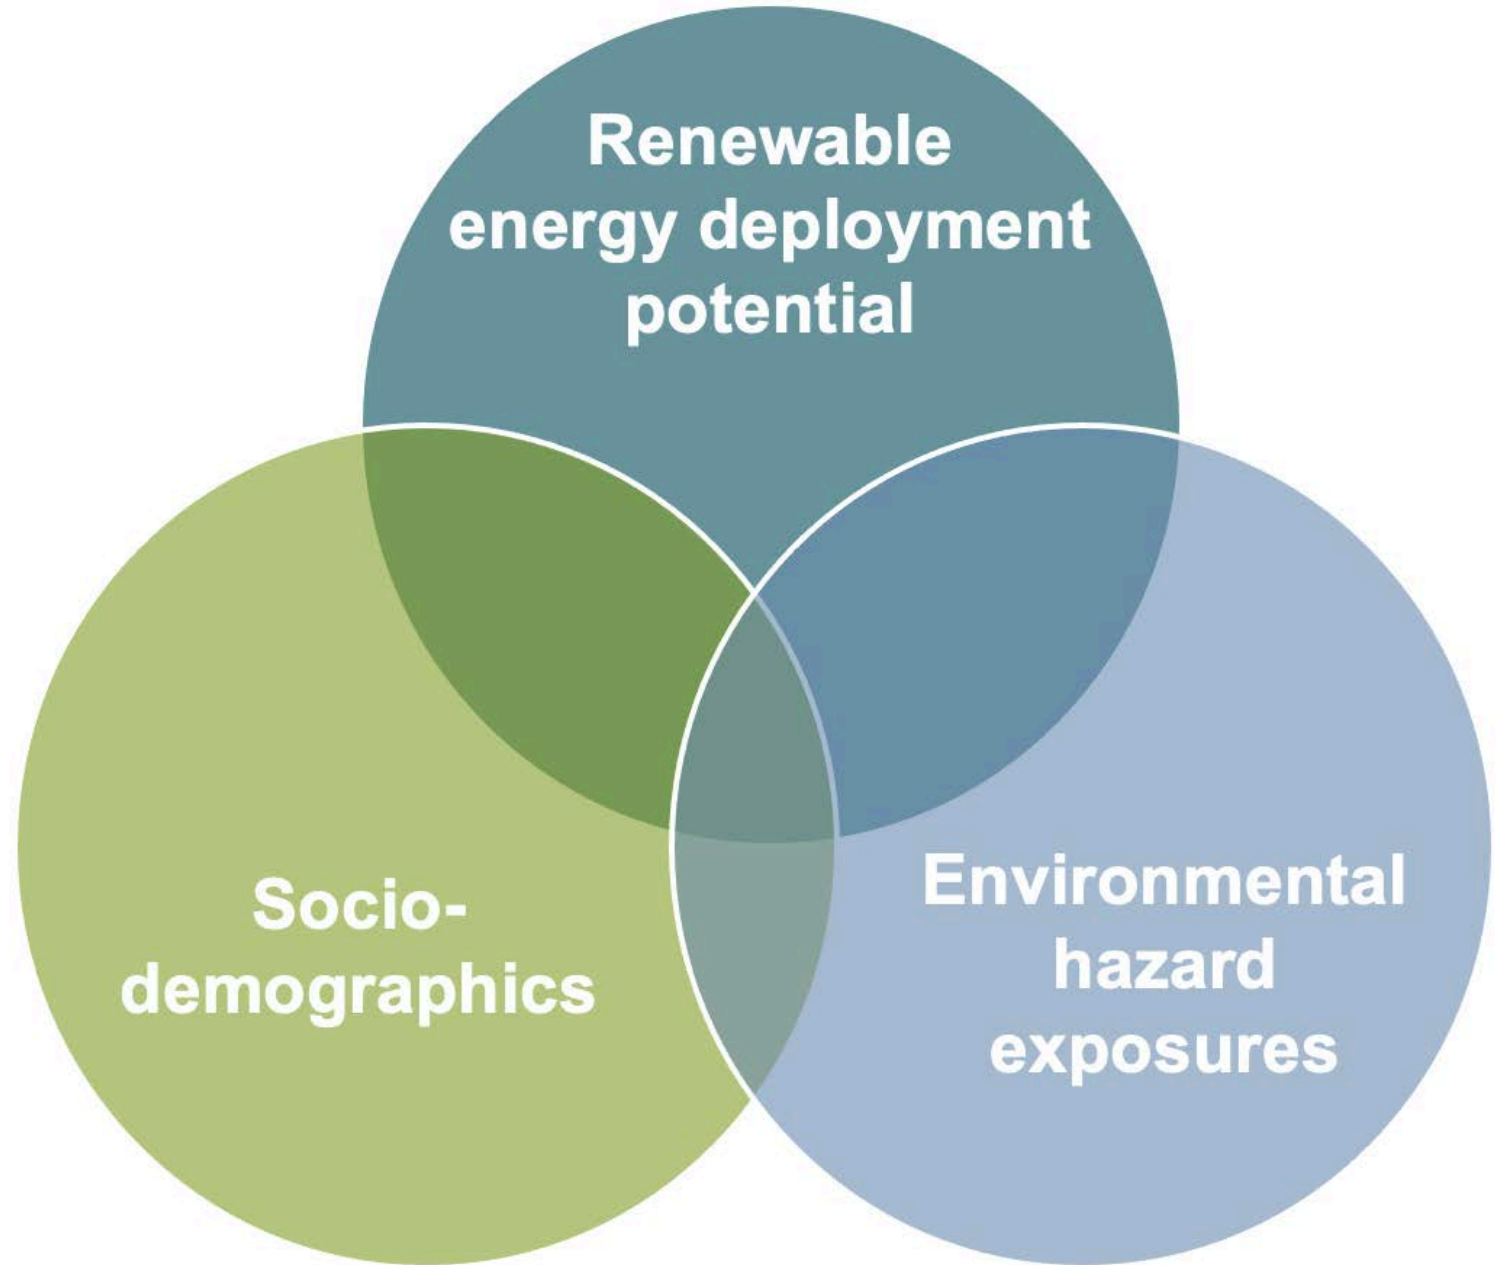

“Directs 40% of the overall benefits of certain Federal investments to flow to disadvantaged communities,” including investments in clean energy. (DOE, 2022)

Our goal: Where might renewable energy investments deliver the greatest benefits to disadvantaged communities?

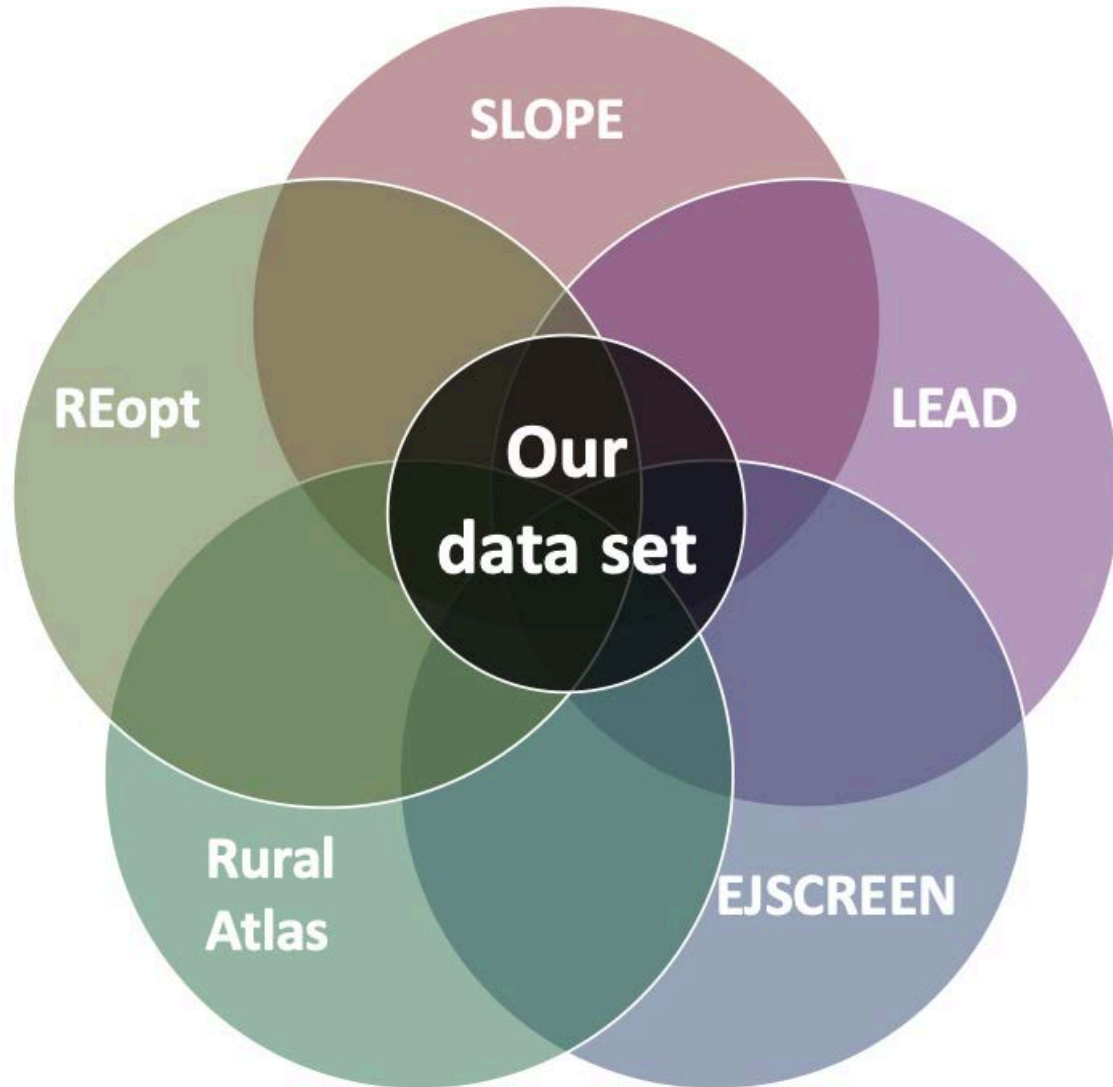

Our Goal

Is there overlap?

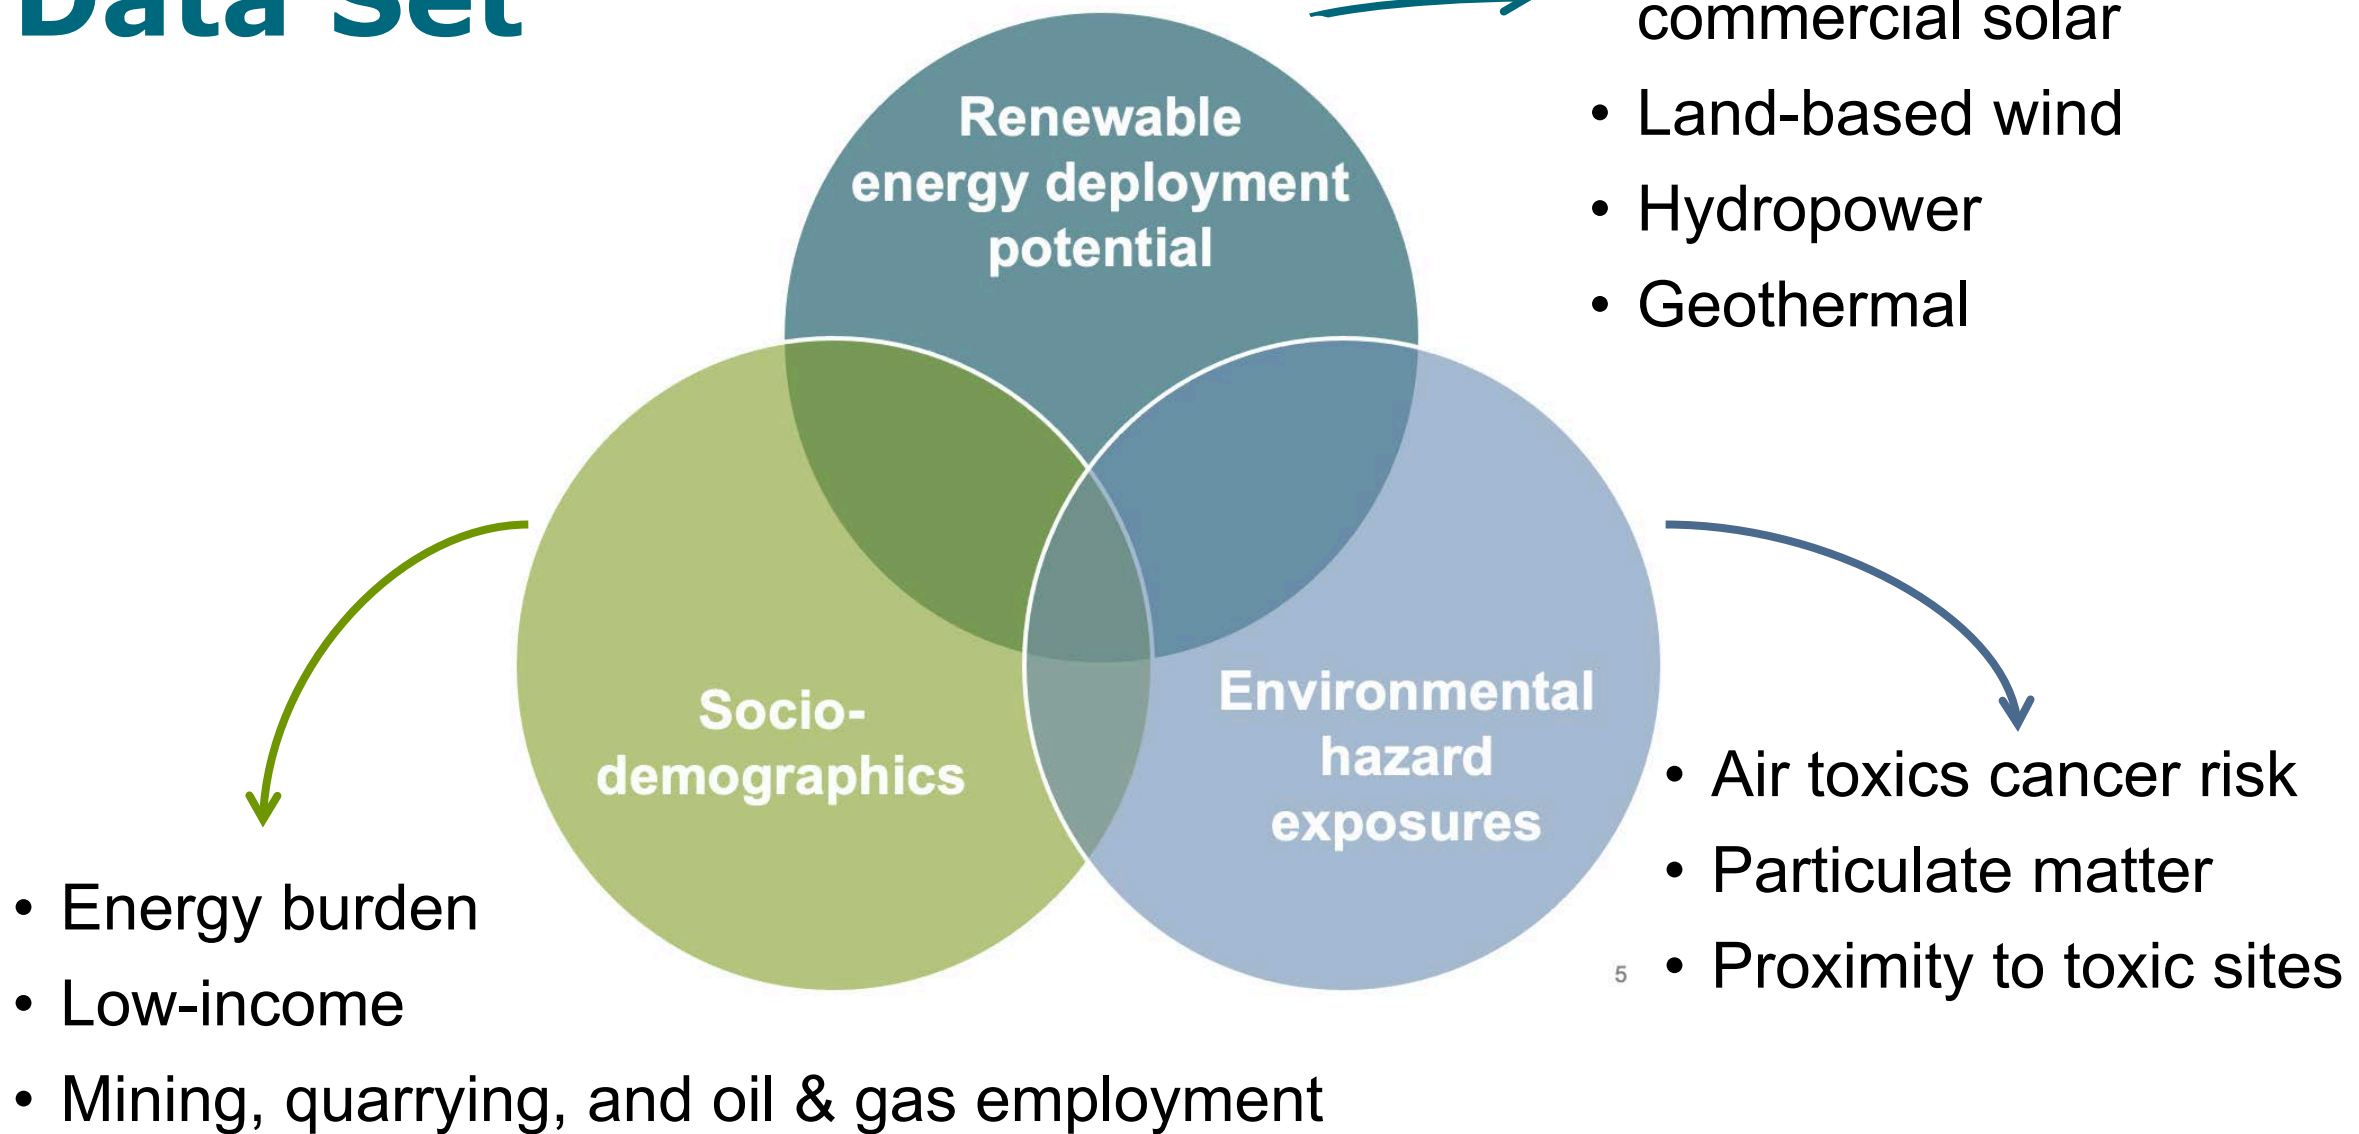

Data Set

- **SLOPE:** State and Local Planning for Energy platform (NREL)
- **LEAD:** Low-Income Energy Affordability Data tool (DOE)
- **REopt[®]:** Renewable Energy Integration and Optimization model (NREL)
- **EJScreen:** Environmental Justice Screening and Mapping tool (EPA)
- **Rural Atlas:** Atlas of Rural and Small Town America (USDA)

Data Set

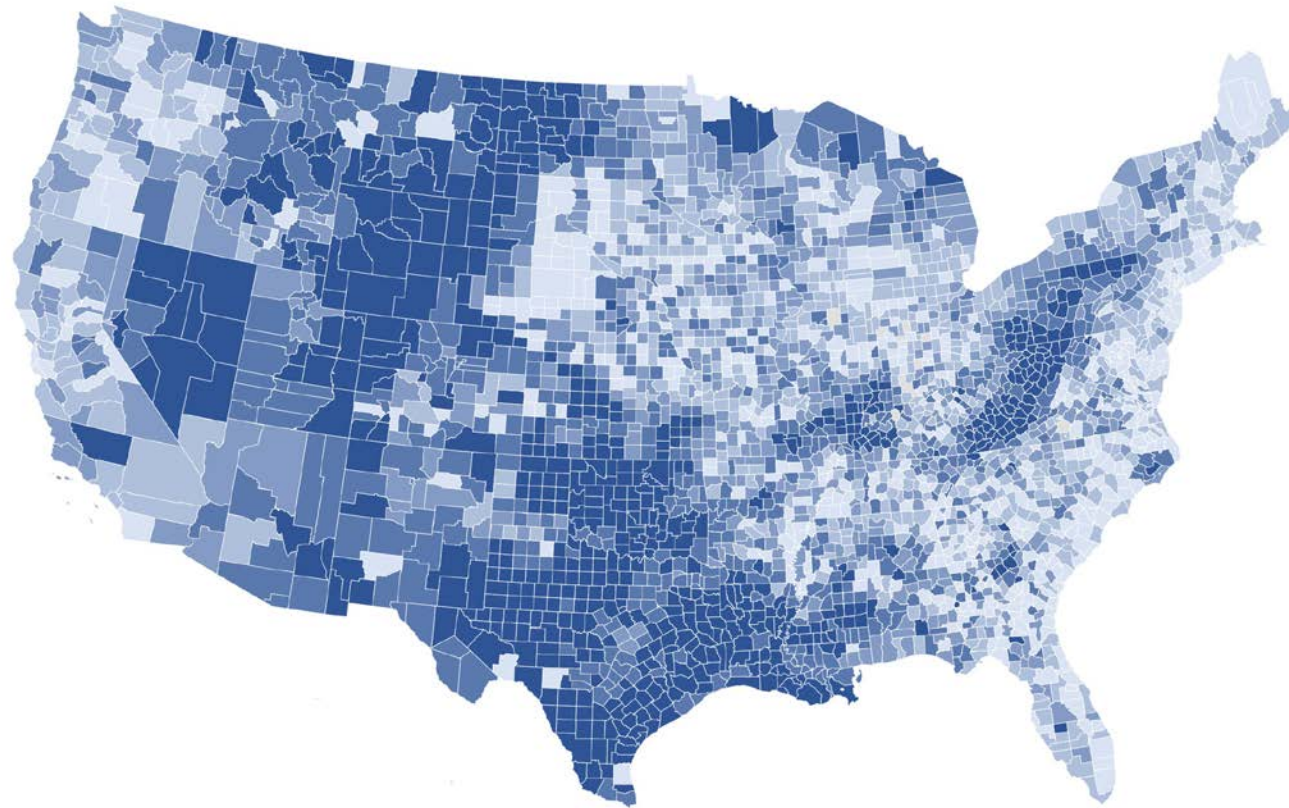

Journal Article

- **Top-down** applications
 - Identify national-level trends in overlap between renewable energy deployment potential and disadvantaged community indicators
- **Bottom-up** applications
 - Investigate county-level needs and opportunities for renewable energy development

Opportunities for Transitioning Workers: Utility Solar

County Profile

Costilla County, CO

- **Indicators of high need**

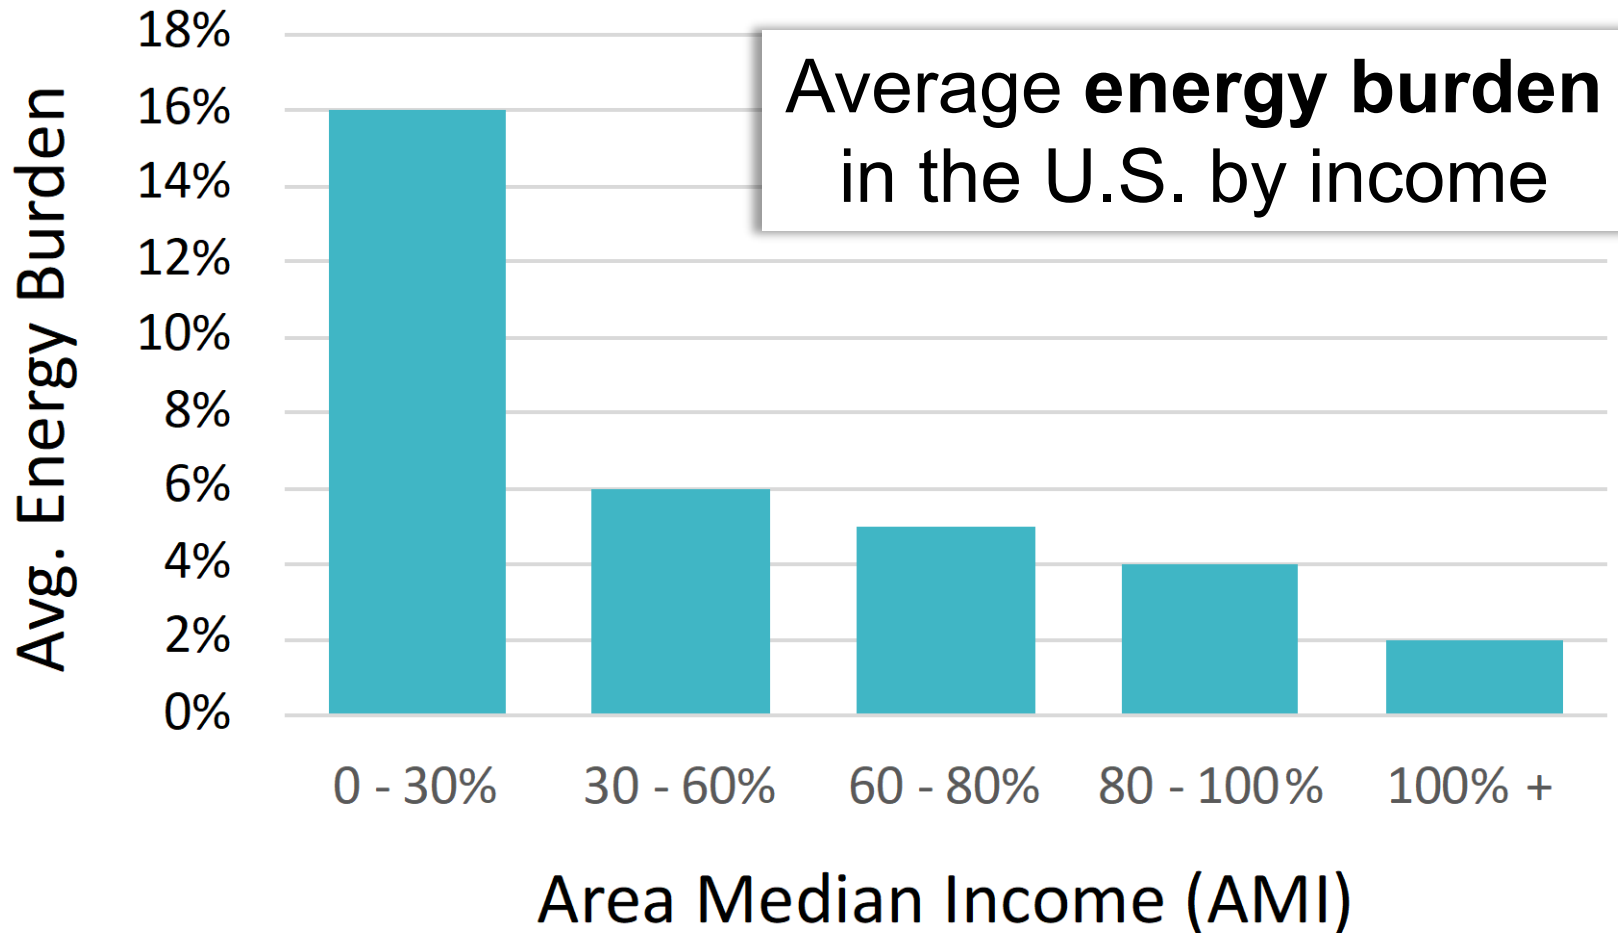

- Rural & farming-dependent
- High unemployment
- Low-income, persistent poverty, & energy burdened

- **Indicators of high potential**

Energy Burden

Proportion of income spent on household energy costs

County Profile

Energy Burden: Colorado

Avg. Energy Burden (% income)
Census Tract 9727
in Costilla County: 9%

County Profile

Costilla County, CO

- **Indicators of high need**

- Rural & farming-dependent
- High unemployment
- Low-income, persistent poverty, & energy burdened

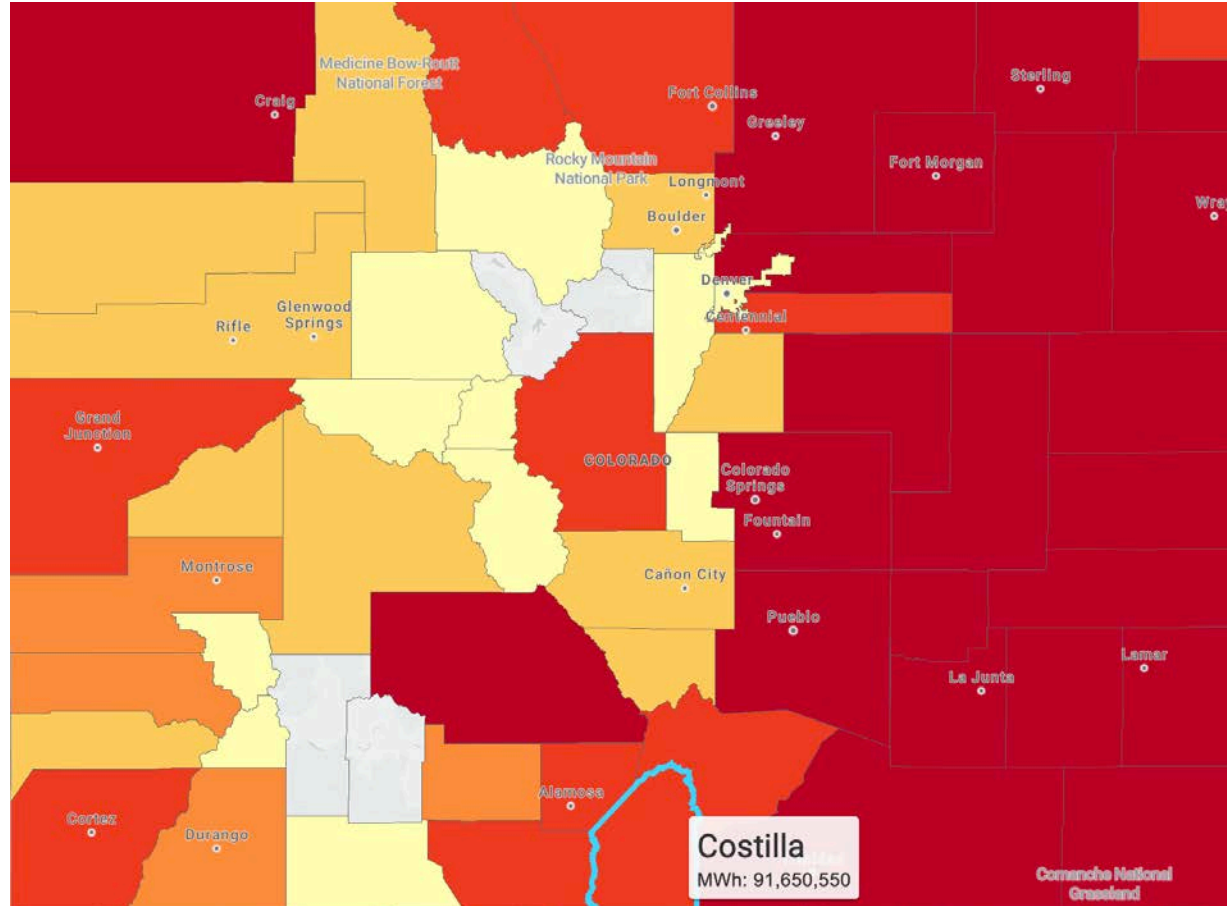

- **Indicators of high potential**

- Land-based wind & utility PV
 - High technical potential
 - Low cost

Prioritizing Communities in Need

- Analyses and data set can help with **equity-focused** renewable energy and community-led **siting decisions**
- Data is **publicly accessible**
- **How to do this in your area?**
Let's chat!

Thank you!

I'd love to hear from you! Liz.Ross@nrel.gov
