The Clean Bus Planning Awards Program

Offering **free technical assistance** for developing comprehensive and customized **electrification plans** for transit and school **bus fleets** serving all types of communities.

Who Qualifies?

School bus and transit bus fleets that are eligible under the EPA Clean School Bus Program and FTA Low or No Emission Grant Program. Visit driveelectric.gov/clean-bus-planning-awards for eligibility and priority criteria.

Why Apply?

- Get a step-by-step plan tailored for your fleet electrification.
- Increase the likelihood of success in getting your electrification project funded and off the ground.
- Opportunity to receive free deployment assistance, closing the gap between planning and implementation.

How to Apply?

Visit driveelectric.gov/clean-bus-planning-awards and fill out an application today. The program accepts new applicants on a rolling basis.

About the Joint Office of Energy and Transportation

The Joint Office is a collaboration between the U.S. Departments of Energy and Transportation to support the buildout of a nationwide network of electric vehicle chargers, zero-emission fueling infrastructure, and zero-emission transit and school buses. Learn more at DriveElectric.gov.
