

Clean Cities Threaded Discussion Groups

Communicate
with Colleagues!

For Clean Cities Coordinators and DOE Officials

Debut Date: May 7, 2000

- *Share ideas with colleagues*
- *Send announcements to key Clean Cities participants*
- *Register to receive automatic updates when new information is added*
- *Ask for assistance or advice*
- *Receive important information from the Clean Cities DOE headquarters office.*

The new Clean Cities Threaded Discussion Group resource is on-line and can only be viewed by Clean Cities Coordinators and Department of Energy (DOE) officials. The Web tool allows for easy communication between these groups. This tool is part of the Clean Cities Web site, but you need to use a separate Internet address, user name, and password to gain access.

To find the site, go to:

www.ccities.doe.gov/cc_teamtalks

Once you're there, you may ask questions and share ideas; however, you won't be able to view the information until you enter a user name and password. Please contact Wendy Dafoe of the National Renewable Energy Laboratory at 303-275-4470 to get a user name and password.
