

New Niche Market Success Stories

www.ccities.doe.gov

Clean Cities Web Site

*—Success is gained by learning
from those who go before us—*

The Clean Cities Web site now features new success story information to help Clean Cities stakeholders and fleets across the country. Organized by niche market applications, the new success stories provide real-life details that will help other fleets get alternative fuel vehicles into operation.

The page also offers fleets the ability to provide their own success stories for inclusion on the Web site and allows fleet managers to submit questions. As always, we welcome feedback, so take a look at this new page and let us know what you think by using the “Feedback” or “Webmaster” links at the bottom of the Web page.

If you have difficulty with any aspect of the Clean Cities Web site, please contact the Webmaster or the Clean Cities Hotline at **1-800-CCITIES**.
