

Revised February 2006

Annual AFV Acquisition Report for State and Alternative Fuel Provider Fleets

Collection of data for this program has been approved by the Office of Management and Budget (OMB). The OMB control number for this activity is 1910-5101. Respondents are not required to file a reply to any federal collection of information unless it has a valid OMB control number. Public reporting burden for this collection of information is estimated to average 5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data, and completing and reviewing the collection of information. Reporting forms and tools for online reporting for state and alternative fuel provider fleets are available at www.eere.energy.gov/vehiclesandfuels/epact/state/index.shtml.

Part A - Fleet Identification

Fleet/Agency Name: _____ Consolidated Metropolitan Statistical Area: _____

Company/State Name: _____ Fleet Type: _____

Point of Contact Name: _____ Point of Contact Phone: _____

Mailing Address: _____ Point of Contact Fax: _____

_____ Point of Contact E-mail: _____

_____ Today's Date: _____

City: _____

State: _____ Zip: _____

Do you want your fleet and your name and phone number included on the publicly accessible list of those fleets possessing excess credits available for sale? Yes _____ No _____

Remarks: _____

Annual AFV Acquisition Report for State and Alternative Fuel Provider Fleets

Part B - Light-duty Vehicles (LDVs) Acquired

LDVs Acquired: Model Year _____ Data

Total Vehicles Acquired: Enter the quantity of LDVs acquired during the _____ model year, including all alternative fueled vehicles (AFVs), plus all non-alternative fueled vehicles (do not count excluded vehicles). The total number of LDVs acquired is necessary for DOE to verify the number of AFVs that a fleet must acquire. A model year runs from September 1 to August 31.

Model Year: _____

Total LDVs Acquired: _____

Total AFV Acquisition Requirements*: _____

*To calculate Total Model Year AFV Acquisition Requirements do the following:

_____ For state fleets, multiply Total LDVs Acquired by 0.75 and round to the nearest whole number.

_____ For fuel provider fleets, including electric utilities, multiply Total LDVs Acquired by 0.90 and round to the nearest whole number.

Note: In rounding to nearest whole number, fractions greater than or equal to one half (0.5) should be rounded up and fractions less than one half should be rounded down.

Annual AFV Acquisition Report for State and Alternative Fuel Provider Fleets

Part D - Biodiesel Fuel Use Credits

Biodiesel Fuel Use Credits⁽¹⁾ Claimed for Model Year _____

- 1. Are you a Biodiesel Fuel Provider(2)? Yes ____ No ____
2. Total Biodiesel(3) purchased in model year _____ for use in vehicles with Gross Vehicle Weight Rating (GVWR) in excess of 8,500 lbs. (Note that this number should be the net amount of biodiesel fuel purchased for use in vehicles in excess of 8,500 lbs. GVWR. Any biodiesel purchased and then sold to another party should not be included in Total Biodiesel Purchased.) _____ Gallons
3. Potential Biodiesel Fuel Use Credits Claimed (Divide line #2 by 450 and round down to the next whole number.) _____ Potential Credits
4. Total number of Biodiesel Fuel Use Credits Claimed (Cannot exceed 50% of total AFV purchase requirements as listed in Part B except for Biodiesel Fuel Providers. For Biodiesel Fuel Providers, total number of Biodiesel Fuel Use Credits cannot exceed total AFV purchase requirements as listed in Part B.) _____ Actual Credits

(1) The Biodiesel Fuel Use Credit became available following the enactment of the Energy Conservation Reauthorization Act of 1998. The 1999 model year for the use of the Biodiesel Fuel Use Credit runs from November 14, 1998, to August 31, 1999. In subsequent model years, the availability of the Biodiesel Fuel Use Credit is from September 1 through August 31.
(2) A Biodiesel Fuel Provider is a fuel provider whose "principal business" is producing, storing, refining, processing, transporting, distributing, importing, or selling (wholesale or retail) biodiesel fuel where the term "principal business" means the largest sales-related gross revenue producing activity. If an organization derives a plurality of gross revenue from sales-related biodiesel fuels activity, the organization's principal business is biodiesel fuels.
(3) Report biodiesel purchased as neat, or 100%, biodiesel. If biodiesel was purchased as biodiesel blends of 20% or higher, only report the biodiesel portions of such blends (e.g., 2,250 gallons of B20—blends of 20% biodiesel and 80% petroleum diesel—should be reported as 450 gallons of neat biodiesel). Biodiesel purchased in blends containing less than 20% biodiesel by volume are not eligible for the Biodiesel Fuel Use Credit.
