21. As you may know, transportation is a major issue in our area. The Puget Sound Council of Governments is one of the agencies responsible for planning for our future transportation needs. As part of the planning process, we have established a panel of residents in order to study the transportation patterns of households in the central Puget Sound area, including King, Kitsap, Pierce, and Snohomish counties. Information from the panel will be used in planning for highway systems, transit systems, the state ferry system, and local roads.

It is important that the panel be truly representative across the Puget Sound area. We would like to include your household. (Pause for response.)

As a first step, all household members, age 15 and older, will be asked to keep a record of local trips for two days. It doesn't take too long and it's kind of interesting to see what trips you make.

As a token of appreciation for contributing to this important community project, we mail \$2 along with the diaries for each person participating on the panel.

22. Once or twice a year, panel households will be recontacted. It may be to learn more about the household members or update the information and to find out if people have made any changes. Would you be willing to be a Puget Sound Transportation Household Panel household?

[If needed: "That's what we do need -- people with all types of activity, from a lot to a very little. It is important that we do include people like yourself."]
